Proficient in JavaScript, React, Next.js, Angular and front-end development tools. Proven track record of leading development teams, driving projects to successful completion, and mentoring junior developers

Skills

C++, CSS, HTML, TypeScript, Javascript, Java, Node.js, MongoDB, PostgreSQL, Angular.js, Teamwork, Adaptability, Python, React, Next.js, Kotlin, Spring-boot, Flask, Artificial intelligence, Pandas, Flutter, C#

Experience

Self-employed | Remote
Full Stack Engineer
11/2023 – Present

- Implemented server-side rendering and progressive web app techniques to improve SEO, load times, and overall user experience.
- Built a RESTful API that enabled the integration of third-party services with the web application
- Utilized DevOps practices to automate deployment processes and improve system reliability.
- Worked with project managers, developers, quality assurance and customers to resolve technical issues.
- Developed logging and monitoring systems to ensure system reliability and availability.
- Designed and implemented a secure, RESTful API that handled over 3 million requests per day.
- Developed a data pipeline to ensure data accuracy and completeness.
- Collaborated with senior developers to write, modify, and debug software applications using programming languages such as Java, Python, or C++.
- Actively contributed to Agile development teams by attending daily stand-up meetings, sprint planning sessions, and retrospective meetings.
- Developed and optimized landing pages to increase lead generation and drive conversions.
- Contributed to architectural discussions and design decisions, ensuring scalability, efficiency, and adherence to best practices.
